

Curriculum Vitae

Dr. Lidia de Bari

Personal informations:

Name: Lidia

Last name: de Bari

Title: PhD, Specialist in Biotechnologies.

Working address: Institute of Biomembranes and Bioenergetics, Italian National Research Council (CNR)

Via Amendola 165/A

70126 Bari, Italy

Tel +390805443365

Fax +390805443317

e-mail: l.debari@ibbe.cnr.it

Nationality: Italian

Date of Birth: 13/10/1973

Education:

2006 **Degree of Specialist** in Biotechnologies, *cum laude*, at Università degli Studi di Bari, Bari - Italy. Director: Prof. R. Gallerani. Thesis title: "Cellular bioenergetics of cerebellar granule cells apoptosis".

2002 **Ph.D.** in Biochemistry and Molecular Biology at Università degli Studi di Bari, Bari - Italy. Director: Prof. M.N. Gadaleta. Thesis title: "Transport and metabolism of lactate isomers in isolated mitochondria".

1998 **Degree in Biological Sciences**, *cum laude*, at Università degli Studi di Bari, Bari - Italy. Thesis title: "Glutamate neurotoxicity in rat cerebellar granule cells: effets on the energetic metabolism".

Current occupation (January 2008-present): Researcher at Istituto di Biomembrane e Bioenergetica –Italian National Research Council (CNR), Bari - Italy.

Contracts and fellowships:

Period: Jul-Oct 2008

Position: Research assistant

Project name: TIORCAS "Trasferimento, innovazione e organizzazione nella ricerca, nella cultura, nell'ambiente e nella sanità" (Communitarian Initiative "INTERREG IIIA").

Institution: Department of Health Sciences - Università degli Studi del Molise, Campobasso - Italy.

Period: Mar 2005-Aug 2006

Position: Research assistant for the study of "The role of mitochondria during apoptosis"

Project name: Research program WP-2: "I mitocondri nell'apoptosi di cellule animali, vegetali e di microrganismi".

Institution: Istituto di Biomembrane e Bioenergetica- CNR, Bari

Period: Sept-Nov 2006

Position: Research assistant for the study of "Isolation and partial purification of mitochondrial enzymes and bioinformatic analysis"

Project name: PRIN 2004 project "Mitocondri vegetali nello stress ossidativo e nell'apoptosi".

Institution: Department of Health Sciences - Università degli Studi del Molise, Campobasso - Italy.

Period: Feb-May 2005

Position: Research assistant

Project name: TIORCAS project "Trasferimento, innovazione e organizzazione nella ricerca, nella cultura, nell'ambiente e nella sanità" (Communitarian Initiative "INTERREG IIIA").

Institution: Department of Health Sciences - Università degli Studi del Molise, Campobasso - Italy.

Period: Feb-Apr 2004

Position: Research assistant

Project name: MIUR project "Patogeni necrotrofi di pomacee in post raccolta e lieviti antagonisti: ruolo dello stress ossidativo nella patogenesi e funghicidi".

Institution: Dipartimento di Scienze Animali, Vegetali e dell'Ambiente (SAVA)- Università degli Studi del Molise(Campobasso), Italy.

Period: Feb 2003-Jan 2004

Position: Fellowship

Project name: "Bioenergetica cellulare nella necrosi da glutammato e nell' apoptosi di cellule dei granuli di cervelletto".

Institution: Consiglio nazionale delle ricerche at Istituto di Biomembrane e Bioenergetica- Bari, Italy.

Period: Nov 2002-Jan 2003

Position: Research assistant

Project name: MIUR project "Bioenergetica: aspetti genetici, biochimici e fisiopatologici".

Institution: Dipartimento di Scienze Animali, Vegetali e dell'Ambiente (SAVA)- Università degli Studi del Molise (Campobasso).

Scientific activity:

The scientific activity of Dr. de Bari can be summarised as follows:

- Transport and metabolism of physiological substrates in mammalian and plant mitochondria;
- Bioenergetics of cell death in cultured rat cerebellar granule cells;
- Mitochondrial bioenergetics in hypertension;
- Prostate cancer bioenergetics;
- Effect of anticancer drugs on cultured prostate cancer cells;
- Mitochondrial bioenergetics and mitochondrial reactive oxygen species (ROS) production in Rett and Down Syndrome.

Dr. de Bari's activity is documented by:

- **23** papers published on international journals;
- **2** articles on book.

h index (September 2015) = **12**

Scientific collaborations:

Dr. de Bari has collaborated with Professors belonging to national scientific institutions:

Prof. S. Passarella, Dipartimento di Scienze della Salute, Università del Molise, Campobasso, Italy.
Subjects: Mitochondrial energy metabolism and mitochondrial carrier activity under physio-pathological conditions. The role of mitochondria in the apoptosis and necrosis of rat cerebellar granule cells.

Prof. Pietro Calissano, Istituto di Neurobiologia e Medicina Molecolare- CNR, Roma, Italy.
Subject: The role of mitochondria in neuronal death.

Prof. Giovanni Principato, Istituto di Biologia e Genetica, Facoltà di Medicina e Chirurgia, Università di Ancona- Ancona, Italy. Subject: Mitochondrial transport and metabolism of D-lactate.

Prof. Giovanni Laviola, Dipartimento di Biologia Cellulare e Neuroscienze, Istituto Superiore di Sanità, Roma.

Tematica: Mitochondrial bioenergetics and ROS production in Rett syndrome.

Participation to research projects:

2011-2014 Research project **MIUR FIRB-MERIT RBNE08YFN3_005** “Determinazione del coinvolgimento dell’omeostasi mitocondriale nella trasformazione neoplastica e apoptosi”.

2011-2012 Research project **FaReBio di Qualità** - Farmaci e reti Biotecnologiche di Qualità. Laboratorio di Riferimento "Farmaci Innovativi - Modelli cellulari e murini e studi funzionali" linea di ricerca 3: Validazione di composti naturali e/o di sintesi antitumorali e di nuovi target”.

2004-2006 Research project **MIUR** - WP-2 “I mitocondri nell’apoptosi di cellule animali, vegetali e di microrganismi”.

2003-2006 Research project **MIUR** - cod. RBNE01ZK8F_003 (PNR 2001-2003 - FIRB art. 8 - D.M. 199 Ric. del 8 march 2001).

2003-2005 Research project “NEUROTROFINE E MECCANISMI RELATIVI A MALATTIE NEURODEGENERATIVE” - **FISR** - Year 2000 (d.lgs. 5 june 1998, n 204).

2004 **Macrolinea 015.03** “Biomembrane e metabolismo cellulare. Meccanismi molecolari di regolazione dell’espressione. Interrelazioni nucleo-citoplasma-mitocondri. Aspetti fisiopatologici”.

2001-2003 Research project “Metabolismo e trasporto in organuli cellulari in condizioni fisiopatologiche” - **PIANO TRIENNALE** 2001-2003 - CNR.

2000 Operative Unit “Regolazione dei processi metabolici di piante ed animali a fini produttivi” - CNR Project “**Agenzia2000**” cod. CNRC008391_003.

1998 Operative Unit of the sub-project "Protezione degli antiossidanti da patologie in sistemi modello" **POP Project**, art.3 del B.O. XXIX year, n.17, part IV - september, 1, 1998, title "Studio del meccanismo di azione degli antiossidanti".

Foreign languages:

Very good knowledge of the English language both written and spoken.
